## 1 IDENTIFICATION OF THE ANNUAL/ FINAL IMPLEMENTATION REPORT

CCI	2014CZ16RFOP002
Title	Annual Report on the Implementation of the Programme 06 Integrated Regional Operational Programme for 2020
Version	
Reporting year	2020
Date of approval of the report by the Monitoring Committee	

## 2 OVERVIEW OF THE OPERATIONAL PROGRAMME IMPLEMENTATION (Article 50(2), and Article 111(3)(a) of Regulation (EU) No 1303/2013)

The Integrated Regional Operational programme (IROP) is a successor of the seven regional operational programmes and partly of the Integrated Operational Programme of the 2007-2013 programming period. The priority of IROP is to enable a balanced development of the territory, to upgrade the infrastructure, improve public services and public administration and ensure sustainable development in municipalities, cities and regions. IROP's aim is to strengthen regional competitiveness and quality of life through interlinking interventions of national and regional nature, which have a significant impact on the territory.

The 2020 Annual Implementation Report of the Integrated Regional Operational Programme (IROP AIR 2020) provides information on the progress of the IROP implementation made until 31.12.2020. To convert the CZK data, we used the exchange rate of the European Central Bank at CZK 26.213/ EUR from December 2020.

### Status of the programme implementation

As of 31.12.2020, the IROP Managing Authority (Ministry of Regional Development of the Czech Republic) announced 95 calls for proposals amounting to EUR 7.7 billion (CZK 201.7 billion) of total eligible expenditure (TEE), i.e. 138% of the total financial allocation for the programme (note: unless stated otherwise, the financial data concern the TEE share). The applicants submitted 16 039 grant applications in the amount of EUR 9.1 billion (CZK 238 billion), i.e. 163% of the allocation. The Managing Authority excluded 3 516 applications amounting to EUR 2 billion (CZK 53.6 billion) due to non-compliance with the conditions of the call or lack of funds in the call. The MA approved 10 840 projects worth EUR 6.1 billion (CZK 160.9 billion) and issued legal acts for 10 388 projects worth EUR 6.0 billion (CZK 156 billion), i.e. 107% of the allocation. The Managing Authority reimbursed EUR 3.3 billion EUR (CZK 86 billion) to applicants, i.e. 59.0% of the allocation. IROP MA prepared interim requests for payment from the Commission in the amount of EUR 2.6 billion (CZK 67 billion), i.e. 53.7% of the total programme allocation (ERDF). The number of completed projects was 6 667 worth EUR 2.9 billion (CZK 76.3 billion).

### Information on the preparation of support for integrated projects

The report was generated in  
MS2014+

Mgr. Alena Srpová

11.03.2021 – 12:57:17

In 2020, calls under integrated instruments (IIs) continued to be announced, in particular calls of the Local Action Groups (LAGs). Urban agglomerations implementing Integrated Territorial Investments (ITI) announced cumulatively 213 calls to which 881 aid applications were submitted, requesting EUR 672.4 mil., of which 625 projects worth EUR 483 mil. are already under implementation. EUR 318.5 million was disbursed, i.e. 57.6% of the total ITI allocation in IROP.

Urban agglomerations implementing Integrated Territorial Development Plans (ITDP) announced cumulatively 174 calls to which 306 aid applications were submitted, requesting EUR 191.5 mil., of which 248 projects worth EUR 159.3 mil. are already under implementation. EUR 96.2 million was disbursed, i.e. 45.6% of the total ITDP allocation in IROP.

Local Action Groups announced cumulatively 1 783 calls to which 4 028 aid applications were submitted with an allocation of EUR 340 mil., of which 2 682 projects are already under implementation at EUR 224 mil. EUR 132 million was disbursed, i.e. 45.5% of the total CLLD allocation in IROP.

After the fourth revision of the programming document, the allocation for projects of integrated instruments (including allocation for the operating and animation costs of LAGs) is approximately EUR 1.2 billion (24.1% of the total IROP allocation).

Due to the introduction of crisis and emergency measures by the Government of the Czech Republic, the ministries and local authorities in response to the deteriorated epidemiological situation in the Czech Republic associated with COVID-19, the IROP Managing Authority did not hold II holders liable for any delay in the implementation of the integrated strategy in 2020 against the set percentage spending limits and did not reduce the reserved IROP allocation in response to a failure to meet the set limit of 55.44% in the submitted payment claims.

With regard to the started preparatory work for the 2021-2027 programming period and minimization of overlaps of the 2014-2020 period and the 2021-2027 period, the IROP Managing Authority set the conditions for the last announcement of calls and submission of projects under II so that projects may be submitted under the II calls (including ITI IB calls) until the end of 2021 at the latest. All II holders were informed of this step in the summer of 2020, so that they could take these conditions into account in good time in their call schedules and in any changes to their integrated strategies.

### **Achievement against the n+3 target**

The IROP MA met the n+3 target for 2020 already in the first half of the year. Interim payment requests sent to the Commission amounted to EUR 2.6 billion at the end of 2020, exceeding the n+3 limit for 2021 by about 16%.

### **Information about the financial instrument**

The IROP financial instrument (IROP FI) was implemented in 2020 under SO 2.5, specifically in the area of energy savings in apartment buildings. The implementation was processed by the State

Investment Support Fund (SISF), in accordance with Article 38(4)(c) of CPR, as amended by Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council. On 21 February 2020, the IROP Managing Authority issued a call to the IROP FI manager, which set out the requirements for the SISF activity as a financial intermediary, and subsequently the implementing actions were entrusted to it.

SISF in the role of the IROP FI manager created a Thermal Insulation Programme, through which it implements the IROP FI. Subsequently, SISF issued a call to final recipients with the receipt of applications starting on 2 March 2020.

Then, on 25 June 2020, a Financing Agreement was signed between the IROP MA and the SISF, in which SISF received an allocation of EUR 22 892 245,35 for the IROP FI. Detailed data on the IROP FI are available in the appendix to the annual report.

### **Specific IROP outputs**

Under PA 1 so far, 680 km of roads have been upgraded, 823 public transport vehicles have been acquired and 100 IRS facilities have been reconstructed or built.

Under PA 2, 1 000 social flats and 699 facilities for social services were supported. 244 jobs were created for people from disadvantaged groups. A total of 107 health care facilities and 1 360 schools received support from IROP. 50 309 households have better classified energy consumption.

Under PA 3, 34 monuments were revitalized, 382 information systems and 361 land use plans, regulation plans and territorial studies were acquired.

Under PA 4, 178 CLLD strategies were supported, 2 450 LAG calls were successfully implemented and 4 605 seminars, workshops, conferences and trainings were held.

Under PA 5, 551 FTEs of permanent employees of the implementation structure have been supported and 6 112 pieces of new equipment have been purchased.

### **The contribution to macro-regional and sea basin strategies**

IROP contributes to the Strategy's objectives by supporting the area of social inclusion, public administration and culture, in accordance with the Action Plan for the Strategy Implementation. The link to the EU Strategy for the Danube Region is set out in Chapter 4.5 of the IROP PD.

In order to meet the Strategy's objectives, 28 calls were announced in the area of social inclusion (SO 2.1 and 2.2), 11 calls in public administration (SO 3.2 and 3.3) and 8 calls to support culture (SO 3.1) by the end of 2020.

### 3 IMPLEMENTATION OF THE PRIORITY AXES (Article 50(2) of Regulation (EU) No 1303/2013)

#### 3.1 An overview of the implementation

ID	Priority Axis	Key information about the implementation of the priority axis with reference to key events, significant problems and measures taken to remove them
06.1	Competitive, accessible and safe regions	<p>Published calls</p> <p>In 2020, two calls were announced under PA 1 with the total allocation of CZK 4.8 billion (EUR 184.6 million) of ERDF funding. A continuous call focused on class II and III roads (SO 1.1) and a call focused on low-emission and emission-free vehicles in the coal regions (SO 1.2). A total of 41 projects were submitted in the amount of CZK 3.5 billion of the ERDF funding.</p> <p>As of 31 December 2020, Decisions were issued under PA 1 for 1 227 projects in the amount of CZK 47.0 billion (EUR 1.8 billion) of the ERDF funding. Beneficiaries had 1 417 payment requests reimbursed in the amount of CZK 26 billion (EUR 994 million) of the ERDF funding. CZK 23,6 billion (EUR 907,9 million) of the ERDF was certified.</p> <p>Problems and the measures taken</p> <p>In June 2020, the appraisal of projects was completed under time-limited call 91 with 59 approved projects, 7 substitute projects and 31 non-appraised projects. The value of the projects exceeded the call allocation, so the IROP MA increased the allocation with the necessary amount.</p> <p>In July 2020, the IROP Monitoring Committee approved another change in the appraisal criteria in SO 1.1. Call 95 is continuous without a substantive appraisal and with ERDF aid intensity of 85% and state budget contribution of 5%. The volume of support for each of the regions was also limited to a maximum of CZK 333.0 million from the ERDF. SO 1.1 is still not allowed to support substitute projects, all savings are used to cover the over-commitment.</p> <p>Thanks to the exception from the Ministry of Finance of the Czech Republic (MF CR) for the second IROP overcommitment, the allocation of call 22 Telematics for public transport was increased by CZK 19.0 million, call 72 Cycling II by CZK 276.5 million and call 73 Construction and modernization of transfer terminals II by CZK 59.8 million. The increase covers all substitute projects. In call 22, 2 out of 2 applicants did not lose interest in the support, in call 72 it was 16 out of 29, and in call 73 it was 5 out of 6.</p> <p>In 2020, the implementation was rescheduled in some projects, partly due to COVID-19.</p>
06.2	Enhancing public services and living conditions for the inhabitants of regions	<p>Published calls</p> <p>No call announced in 2020.</p> <p>As of 31 December 2020, Decisions were issued for 5 407 projects worth CZK 45.0 billion (EUR 1.7 billion) from the ERDF. Beneficiaries had 5 125 payment requests reimbursed in the amount of CZK 27.7 billion (EUR 1 056 million) from the ERDF. CZK 26.5 billion (EUR 1 020.1 million) of the ERDF was certified.</p> <p>Problems and the measures taken</p> <p>Thanks to the approval of MF CR for the second over-commitment, the allocation was increased in September 2020 for call 39 Development of the infrastructure of community centres in socially excluded localities (SELs), call 74 Development of infrastructure of multifunctional community centres and call 82 Development of social services (SELs) II, which covered all substitute projects.</p> <p>In SO 2.3, the interest in building infrastructure for the development of community services lowered in call 75. In particular, it concerns the establishment of Mental Health Centres, which prefer non-investment support from the OP Employment.</p> <p>At the end of 2019, call 92 Primary schools for coal regions was announced with an allocation of CZK 265.0 million from the ERDF. As the value of the submitted projects reached the allocation, the receipt of applications for support was terminated earlier (a total of 118 applications for CZK 920.0 million from the ERDF). On 07.09.2020, the second revision was made due to an increase in the allocation.</p> <p>At the beginning of 2018, call 78 Energy savings in apartment buildings III was issued with an allocation of CZK 3.5 billion from the ERDF. Due to lower demand, the date of receipt of applications was extended till 29.11.2020 and the implementation completion date was</p>

ID	Priority Axis	Key information about the implementation of the priority axis with reference to key events, significant problems and measures taken to remove them
		<p>extended till 30.06.2023 for projects submitted after 20.05.2019. In June 2020, there was an increase in the number of applications submitted, which is why the allocation was increased to CZK 5.5 billion from the ERDF.</p> <p>On 22.09.2020, the revision of Call 78 came into force, which took into account the replacement of Decree No 78/2013 Coll. on energy management by Decree No 264/2020 Coll. on the energy performance of buildings.</p> <p>Some projects were extended, most often due to COVID-19. As part of the measure, the beneficiaries submitted Project Change Requests according to Binding Opinion No 20.</p>
06.3	Good governance of the territory and streamlined public institutions	<p>Published calls</p> <p>In 2020, call 94 was issued in SO 3.2, focusing on the digitization of the building permit procedure with an allocation of CZK 1.0 billion from the ERDF (EUR 39.7 million).</p> <p>As of 31 December 2020, Decisions were issued under PA 3 for 711 projects in the amount of CZK 19 billion (EUR 725 million) of the ERDF funding. Beneficiaries had 1 264 payment requests reimbursed in the amount of CZK 7,6 billion (EUR 289.0 million) of the ERDF funding. CZK 6.5 billion (EUR 246.5 million) of the ERDF was certified.</p> <p>Projects under calls 17 and 23 completed their implementation.</p> <p>Problems and the measures taken</p> <p>Based on the exception granted by MF CR for the second IROP over-commitment, it was possible in September 2020 to increase the allocation of Call 52 by CZK 1.6 billion and call 76 by CZK 1.0 billion. The increase in these calls covers all substitute projects that were subsequently approached with an offer of funding.</p> <p>The year 2020 was significantly affected by the onset of the COVID-19 pandemic and the emergency measures taken, with a negative impact on the project implementation schedules. Applicants also faced increased threats to cyber security, see the National Cyber and Information Security Agency's Warning of 16 April 2020.</p> <p>During the year, beneficiaries requested project extensions most often due to COVID-19. For example, a construction company had to cut construction work due to COVID-19 appearing among its employees. Another common reason for prolongation was the repetition of public procurement procedures due to a low interest of bidders. For the non-standard situations related to COVID-19, the IROP MA issued Binding Opinion No 20, addressing the possible extensions of implementation, provided that pre-determined conditions are met.</p> <p>Implemented projects are significantly affected by the dynamically developing market and legislation. The situations of projects are assessed on a case-by-case basis and addressed with tools and processes defined in the OP.</p>
06.4	Community-led local development	<p>Published calls</p> <p>In 2020, no new calls were announced in PA 4.</p> <p>As of 31 December 2020, Decisions were issued under PA 4 for 2 983 projects in the amount of CZK 8.1 billion (EUR 309.4 million) of the ERDF funding. Beneficiaries had 2 035 payment requests reimbursed in the amount of CZK 4.4 billion (EUR 169.0 million) of the ERDF funding. Almost CZK 4.0 billion (EUR 153.0 million) of the ERDF funding was certified.</p> <p>Problems and the measures taken</p> <p>The year 2020 was significantly affected by the onset of the COVID-19 pandemic and the emergency measures taken, with a negative impact on the implementation of CLLD integrated strategies. For this reason, the IROP MA did not apply the reduction of the reserved allocation in the IROP. However, it set the conditions for issuing the last calls of the LAGs and for spending the SO 4.1 allocation so that the last projects may be submitted by 31 December 2021 at the latest. In the case of support for animation and operating costs of the LAGs, the time eligibility for the preparation of the CLLD strategy for the 2021-2027 programming period was extended to 31 December 2021 compared to the original deadline of 31 December 2020.</p>

ID	Priority Axis	Key information about the implementation of the priority axis with reference to key events, significant problems and measures taken to remove them
06.5	Technical assistance	<p>As of 31 December 2020, Decisions were issued under PA 5 for 55 projects in the amount of CZK 2.3 billion (EUR 89.1 million) of the ERDF funding. Beneficiaries had 117 payment requests reimbursed in the amount of CZK 1.4 billion (EUR 55.0 million) of the ERDF funding. CZK 1.4 billion (EUR 54.3 million) from the ERDF was certified.</p> <p>Published calls</p> <p>In 2020, no new call was opened under SO 5.1.</p> <p>Problems and the measures taken</p> <p>The implementation of projects in the field of training and publicity was significantly influenced by COVID-19 and the related measures. Some training activities could not be implemented and some were transferred online. In publicity projects, the situation around COVID-19 had an impact mainly on the planned "contact campaigns", such as roadshows, conferences, etc. There was an increased shift of publicity activities to the online environment.</p>

### 3.2 Common indicators and programme-specific indicators (Article 50(2) of Regulation (EU) No 1303/2013)

**Table 1: Result indicators for the ERDF and Cohesion Fund (by priority axis and specific objective); applicable also to priority axis "Technical Assistance" (3)**

Investment Priority: 06.1.13 Promoting low carbon strategies for all types of territories, in particular for urban areas, including the promotion of sustainable multimodal urban mobility and mitigation-relevant adaptation measures

ID	Indicator	Measurement unit	Category of region (if relevant)	Baseline value	Baseline year	Target value (2023)	ANNUAL VALUE										Explanation (if necessary)
							2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	
75120	The share of public transport in the total output of passenger transport	%	Less developed regions	30.000	2011	35.000	0.000		30.700	30.700	31.000	30.100	30.100	0.000	0.000	0.000	The value is reported retrospectively for the year 2019, therefore the consequences of the COVID-19 epidemic are not reflected here. Despite the absolute increase in the total number of passenger-kilometres, the share of public transport decreased, especially in view of the fact that private passenger transport grew at an even higher pace due to the still underdeveloped network of corridors in rail transport, the capacity of which is currently fully utilised. A secondary reason is a change in the type of demand - the number of passengers in public transport is growing faster than the volume of

							ANNUAL VALUE										
ID	Indicator	Measurement unit	Category of region (if relevant)	Baseline value	Baseline year	Target value (2023)	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Explanation (if necessary)
																	passenger-kilometres, so passengers are probably using public transport more for shorter distances.

Investment Priority: 06.1.23 Supporting investment aimed at addressing specific risks, ensuring disaster resilience, and development of systems for crisis management

							ANNUAL VALUE										
ID	Indicator	Measurement unit	Category of region (if relevant)	Baseline value	Baseline year	Target value (2023)	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Explanation (if necessary)
57520	Number of exposed areas with inadequate preparedness of IRS units	Areas	Less developed regions	108.000	2014	48.000	0.000		108.000	108.000	107.000		52.000	0.000	0.000	0.000	In cooperation with the Ministry of the Interior of the Czech Republic, the IROP MA prepared an update of the value after the completion of most projects and found that resilience increased in another 55 areas, which means the resulting achieved value is 52.
57530	Readiness of IRS units	Persons	Less developed regions	1 400.000	2014	71 200.000	0.000	1 100.000	6 400.000	12 460.000	24 877.000	39 206.000	67 809.000	0.000	0.000	0.000	

Investment Priority: 06.1.42 Enhancing regional mobility through connecting secondary and tertiary nodes to TEN-T infrastructure, including multimodal nodes

							ANNUAL VALUE										
ID	Indicator	Measurement unit	Category of region (if relevant)	Baseline value	Baseline year	Target value (2023)	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	Explanation (if necessary)

																	provided in AIR 2021.

Investment Priority: 06.2.56 Investing in health and social infrastructure which contributes to national, regional and local development, reducing inequalities in terms of health status, promoting social inclusion through improved access to social, cultural and recreational services and the transition from institutional to community-based services

							ANNUAL VALUE										Explanation (if necessary)
ID	Indicator	Measurement unit	Category of region (if relevant)	Baseline value	Baseline year	Target value (2023)	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	
55320	Average number of persons using social housing	Persons/ year	Less developed regions	1 388.000	2014	9 634.000	0.000				18.300	291.030	988.240	0.000	0.000	0.000	The value is reported for the first year after the completion of the project. For that reason, the reported value is a sum from projects completed by the end of 2020. The planned values of all completed projects are around 2115 persons/year.
57410	Average duration of hospitalization in institutions of long-term psychiatric care	Days	Less developed regions	115.000	2012	103.000	0.000		98.700		110.300		105.900	0.000	0.000	0.000	The value is updated at two-year intervals and is reported with a one-year delay (in 2020 for 2019, etc.)
57910	Capacities of modernized highly specialized and follow-up health care	Beds	Less developed regions	44 211.000	2014	38 368.000	0.000				44 224.000		44 408.000	0.000	0.000	0.000	The value is updated at two-year intervals and is reported with a one-year delay (in 2020 for 2019, etc.)

							ANNUAL VALUE										Explanation (if necessary)	
ID	Indicator	Measurement unit	Category of region (if relevant)	Baseline value	Baseline year	Target value (2023)	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023		
67510	Capacity of services and social work	Clients	Less developed regions	1 121.000	2014	7 270.000	0.000				217.000	3 289.000	8 484.000	10 478.000	0.000	0.000	0.000	The target value of indicator 67 510 is exceeded mainly due to the fact that greater support is provided to field services which can serve more clients.

Investment Priority: 06.2.58 Providing support to social enterprises

							ANNUAL VALUE										Explanation (if necessary)
ID	Indicator	Measurement unit	Category of region (if relevant)	Baseline value	Baseline year	Target value (2023)	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	
10411	Unemployment rate among the lowest-educated persons	%	Less developed regions	28.500	2012	22.000	0.000		22.000	22.200	13.100	10.700	10.700	0.000	0.000	0.000	The value for 2019 was updated from 10.8 to 10.7, which can be again explained by the unprecedented economic situation and the related developments on the labour market in the Czech Republic, showing one of the lowest unemployment rates in the EU.

Investment Priority: 06.2.67 Investing in education, vocational education and training to acquire skills and lifelong learning by developing infrastructure for education and training

ID	Indicator	Measurement unit	Category of region (if relevant)	Baseline value	Baseline year	Target value (2023)	ANNUAL VALUE										Explanation (if necessary)
							2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	
50020	Share of three-year-old children placed in pre-school establishments	%	Less developed regions	77.300	2013	90.500	0.000	84.100	82.500	83.900	82.100	82.700	82.800	0.000	0.000	0.000	The value for 2019 was updated from 82.8 to 82.7, the indicator remains in the range of 80-85%.
50030	Share of early school leavers	%	Less developed regions	5.400	2013	5.000	0.000		5.300	6.800	6.200	6.200	6.700	0.000	0.000	0.000	After 2014, the methodology of calculating statistics called unemployment rates by sex, age and educational attainment level was changed in the SFC database, which led to an increase in the value of 5.3 (reported in the SFC in 2016) to 6.2, which is in the SFC now. The values for 2017 to 2020 are approximately one percentage point higher than according to the original calculation methods, according to which the value could now be around 5.2-5.3%.

Investment Priority: 06.3.05 Strengthening ICT applications for eGovernment, eLearning, inclusion into information society, eCulture and eHealth.

\* For the ERDF or the Cohesion Fund, the Member States submit cumulative values for the output indicators. For the ESF, the cumulative values are calculated by the SFC2014 system automatically based on annual values provided by the Member States. The values for the financial indicators are cumulative for all funds. Values for key implementation steps are cumulative for all funds if the key implementation steps are expressed by a number or percentage. If the result is qualitatively defined, it should be noted in the table whether it has been achieved or not.

### 3.4 Financial data (Art. 50(2) of Regulation (EU) No 1303/2013)

**Table 6: Financial data at the level of priority axes and programmes set out in Table 1 of Annex II to Commission Implementing Regulation (EU) No 1011/2014 (11)**

Priority Axis	Fund	Category of region	Basis for calculation	Total financing [EUR]	Co-financing rate [%]	The total eligible costs of operations selected for support [EUR]	Proportion of the total allocation covered with selected operations [%]	Public eligible cost of operations selected for support [EUR]	Total amount of eligible expenditure declared by the beneficiaries to the managing authority [EUR]	Proportion of the total allocation covered by eligible expenditure declared by beneficiaries [%]	Number of approved operations
06.1	ERDF	Less developed regions		2 004 974 528.00	85.00	2 155 479 398.98	107.51	2 097 836 695.36	1 180 565 703.11	58.88	1228

-----  
11 - Commission Implementing Regulation (EU) No 1011/2014 of 22 September 2014, laying down detailed rules for implementing Regulation (EU) No 1303/2013 of the European Parliament and of the Council as regards the models for submission of certain information to the Commission and the detailed rules concerning the exchanges of information between beneficiaries and managing authorities, certifying authorities, audit authorities and intermediate bodies (OJ L 286, 30.9.2014, p. 1).

**Table 8: Use of cross-financing (12)**

1.	2.	3.	4.	5.	6.
Use of cross-financing	Priority Axis	EU support to be used for cross-financing on the basis of selected operations (2) (in EUR)	Share of EU support to the priority axis (v %) (3/EU support to priority axis x 100)	The amount of EU support used in cross-financing based on eligible expenditure reported by the beneficiary to the managing authority (in EUR)	Share of EU support to the priority axis (v %) (5/EU support to priority axis x 100)
Cross-financing: costs eligible for support under the ESF, but supported by the ERDF (1)	06.1 Competitive, accessible and safe regions	0.00	0.00	0.00	0.00
Cross-financing: costs eligible for support under the ESF, but supported by the ERDF (1)	06.2 Improving public services and living conditions for residents of regions	0.00	0.00	0.00	0.00
Cross-financing: costs eligible for support under the ESF, but supported by the ERDF (1)	06.3 Good governance of the territory and streamlined public institutions	0.00	0.00	0.00	0.00
Cross-financing: costs eligible for support under the ESF, but supported by the ERDF (1)	06.4 Community-led local development	0.00	0.00	0.00	0.00
Cross-financing: costs eligible for support under the ESF, but supported by the ERDF (1)	06.5 Technical assistance	0.00	0.00	0.00	0.00

1 If it is not possible to determine the exact amount in advance before implementing the operation, the report should be based on the ceilings applicable for the given operation, i.e. if an ERDF operation may include up to 20% of ESF expenditure, the report should be based on the assumption that it is possible to use the entire 20% for this purpose. If the operation is completed, the data used for this column should be based on real costs incurred by the beneficiary.

2 Art. 98(2) of Regulation (EU) No 1303/2013.

**Table 9: Costs of operations performed outside the programme area (ERDF and the Cohesion Fund under the Investments for Growth and Jobs goal)**

1.	2.	3.	4.	5.	6.
	Priority Axis	The amount of EU support that should be used for operations carried out outside the programme area on the basis of selected operations (in EUR)	Share of EU support for the priority axis at the time of the programme adoption (v %) (3/ EU support to priority axis at the time of adoption of the programme x 100)	Amount of EU support in operations implemented outside the programme area, based on eligible expenditure reported by the beneficiary to the managing authority (in EUR)	Share of EU support for priority axis at the time of adoption of the programme (v %) (5/ EU support to priority axis at the time of adoption of the programme x 100)
The costs of operations outside the programme area (1)	06.1 Competitive, accessible and safe regions

<sup>1</sup> In accordance with the ceilings laid down in Article 70(2) of Regulation (EU) No 1303/2013 or Article 20 of Regulation (EU) No 1299/2013 and subject to them.

#### 4 SUMMARY OF EVALUATIONS (Article 50(2) of Regulation (EU) No 1303/2013)

In 2020, two evaluations of the programme were completed.

**Name of the evaluation: Evaluation of PA2: specific objectives 2.1, 2.2, 2.4 with a focus on social inclusion**

Evaluation code: 06.008

Objective of the evaluation: Evaluation of the results of support for inclusion measures implemented under PA2. The evaluation covered selected measures related to TO 9 and TO 10 of the Partnership Agreement. Specifically, the measures concern availability of social services, social housing and entrepreneurship, measures in education and measures to improve the quality and availability of education infrastructure.

Implementation period: 17.07.2019 – 30.06.2020

Evaluation type: external

Supplier: Ernst & Young, s.r.o.

Link for download: <https://www.irop.mmr.cz/cs/Zadatele-a-prijemci/Dokumenty/Ostatni-dokumenty-v-IROP/Evaluace-IROP/Vystupy-evaluace-2020>

Key findings:

The impact on the social inclusion of persons from the target groups is rather indirect in projects under IROP priority axis 2. Positive impacts on the target group are more pronounced where the IROP project was part of a comprehensive coordinated set of activities towards the target group (e.g. an investment project supplemented by a soft project).

In addition to complementarity, an important condition is an appropriate definition of the target group and of the objectives to be achieved. There are large differences between the target groups supported by the IROP, support for socially excluded people (such as the homeless) is much more difficult than support for people in a difficult life situation (such as single mothers), the support does not reach the hard-to-reach target groups.

Projects experience a long time lag between the moment the project begins to be planned and the time it begins to be implemented.

One of the prerequisites for a successful project is the availability of a capable and experienced project manager. Another important factor is the cooperation of the beneficiary with other actors in the social field, most often municipalities or regions.

Monitoring and evaluation of the intervention are complex, the indicators are too general, they are few, they cannot sufficiently monitor the progress achieved and they have a low informative value. The collection of information is fragmented among several institutions.

In the new programming period, support for community centres is not envisaged, support will be shifted to the area of lifelong education in the Leisure Learning Centres for Children and Youth. This is a new and

risky approach. Adults and senior citizens may become excluded from community and educational activities.

If the aim is to maintain the sustainable capacity of social housing, it is necessary to demand a longer sustainability of activities.

Main recommendations and tasks:

The evaluation recommended speeding up the process of appraising project applications. The MA responded by adopting a task to use a maximum number of continuous calls in the setup of the 2021+ programming period.

The evaluation recommended that project management costs be included in eligible expenditure and that the introduction of simplified cost options be considered, or that the rules and procedures of the programme be simplified in general. The MA rejected the recommendation of covering the costs of project management, stating that there will be a limited amount of funds, so it is necessary to target these funds directly at projects, not at project managers. The IROP does not envisage the reimbursement of wage costs, but it will cover the costs of feasibility studies and the preparation of tendering procedures. Project management costs may be part of indirect costs; in IROP 2021-2027, it is planned to use a flat rate of 7% of direct costs to cover indirect costs.

The evaluation recommended supporting the cooperation of beneficiaries with other actors in the supported area, most often with the municipality or region. The MA will discuss the recommendation in working teams.

The evaluation recommended not limiting the partial performance parameters in projects (technical parameters, etc.) and to set the support more flexibly. Social and educational projects are specific in their targeting of vulnerable target groups, whose support often requires non-standard (and thus more expensive) solutions. Promoting a case-by-case approach to projects, whether at the level of appraisal or implementation, so that the implementation meets the needs of beneficiaries and target groups. The MA rejected the recommendation on the grounds that its implementation would disrupt the equality of beneficiaries and projects.

The evaluation proposed adjusting the parameters of the calls so as to cover all target groups within the intervention. Several tasks (community centres, social housing, pre-school education) showed that the beneficiaries were not motivated by the conditions of the calls to support the hard-to-reach target groups, even though the intervention was intended to do so.

Motivation can be provided by adjusting the conditions of the calls, by bonuses in project appraisal or by shortening the sustainability period. The MA rejected the recommendation, pointing out that it was up to the beneficiaries to decide which target group their projects would be intended for.

The evaluation recommended the sustainability of social housing to be at least 15-20 years. The MA has accepted the recommendation and plans to set the sustainability for social housing projects at 20 years.

The evaluation recommended specifying the indicators so that it is clear what they measure and that beneficiaries know how to report them uniformly, and identifying new indicators that will better capture

information important for measuring and evaluating the progress of the programme. The MA took the recommendations into account in the preparation of the indicator system for the 2021-2027 period.

The evaluation recommended collaborating on the collection, processing and transmission of data and information with institutions that collect or use similar data, such as MEYS. The MA set itself a task to establish a data exchange mechanism between the IROP MA and the MEYS.

The evaluation recommended strengthening cooperation with MLSA, MEYS or other relevant ministries regarding the complementarity of projects. The MA adopted a task to discuss the cooperation and coordination at working teams for the new programming period.

**Name of the evaluation: Ex-ante evaluation of the Integrated Regional Operational Programme for the programming period 2021-2027**

Evaluation code: 06.012

Objective of the evaluation: The aim of the ex-ante evaluation was, through an ongoing assessment of the programme documentation, to ensure a quality setting of the Integrated Regional Operational Programme in the new programming period 2021-2027, to assess its effectiveness and intended results, and to propose adjustments so that the OP becomes a strong instrument contributing to the objectives of the Czech Republic and the European Union in the area of cohesion policy.

Implementation period: 20.12.2019 – 31.12.2020

Evaluation type: external

Supplier: Evaluation Advisory CE s.r.o.

Link for download: <https://www.irop.mmr.cz/cs/Zadatele-a-prijemci/Dokumenty/Ostatni-dokumenty-v-IROP/Evaluace-IROP/Vystupy-evaluace-2020>

**Key findings:**

The programme identifies problems and needs in areas identified by the Partnership Agreement 2021-2027 as relevant to the IROP. The space for defining problems and needs directly in the text of the programme is limited, and so the programme contains data especially for the Czech Republic as a whole, while the detail of the territorial units is provided only to a lesser extent.

The definition of the planned supported activities represents a high potential to contribute to addressing the identified problems and to achieving the set goals of the programme. The planned activities are clearly described. The types of beneficiaries are identified adequately to the planned supported activities and the main groups of beneficiaries correspond to both the problems/needs and the planned supported activities.

The IROP2 is a thematically heterogeneous programme, the intensity of mutual complementarity between specific objectives within the programme varies. The specific objectives are internally coherent. In general, the specific objectives have an internal intervention logic which is linked to the overall strategy of the programme and the problems identified.

Under the current conditions, there is no potential for a successful use of financial instruments in the IROP. The planned IROP interventions are of such a nature that the realizable investments do not generate additional income or savings enabling the repayment of the financial instrument.

The proposed indicators can be considered relevant with regard to the planned interventions and expected goals, but some expected outputs or benefits are not covered by the proposed indicators.

The proposed administrative capacity appears to be adequate.

Main recommendations:

A number of recommendations proposed by the evaluator were incrementally incorporated into the text of the programming document. Thus, only a small part of the original recommendations remained in the final version of the evaluation report. Some of them concern the text of the programming document and some the external conditions.

As part of the proposed modifications to the programme, the evaluation recommends identifying the need that would justify the inclusion of support for the planned activity "Infrastructure of educational counselling centres and education in schools and classrooms established under Section 16 paragraph 9 of the Education Act, and educational care centres."

The evaluation recommended extending the supported activities related to cycling infrastructure with transport measures in favour of cycling, implemented in the main traffic space, and to include support for lifelong learning infrastructure. The evaluation also recommended adding the expected benefits of electronic public administration, and emphasizing more or better the support of climate change adaptation measures and measures addressing excluded localities.

Concerning the indicator system setting, 2 recommendations remained in the final version of the evaluation report: to monitor "new" and "reconstructed" buildings/ outputs of the intervention separately and to review the inclusion/definition of the indicator: "Estimated number of students in lifelong education courses".

The remaining 4 recommendations cover the external conditions exceeding the scope of evaluation of the programme documentation. A recommendation of medium importance is ensuring that the upcoming decision of the Ministry of Finance, or the Government of the Czech Republic, on how to co-finance ERDF funds from sources within the Czech Republic does not have a significant impact on the absorption capacity of the IROP, i.e. that the beneficiaries do not bear the task of securing the entire volume of co-financing.

The evaluation recommended that both the programme preparation and implementation continuously take into account changes in legislation or in strategic or implementing documents (e.g. the upcoming amendment to Act No 247/2014 Coll., on the provision of childcare services in a children's group and amending related acts, the upcoming amendment to Act No 108/2006 Coll., on social services).

The third recommendation calls for efforts to reduce the administrative burden of the CLLD strategy approval process.

The fourth and final recommendation suggests designing the calls for proposals and the rules (for applicants and beneficiaries) so that a delay in the selection of the contractor for the project does not constitute a barrier to successful project implementation.

Tasks following up the recommendations from the ex-ante evaluation have not yet been adopted.

## **5 INFORMATION ON IMPLEMENTING THE YOUTH EMPLOYMENT INITIATIVE, IF APPLICABLE (Article 19(2) and (4) of Regulation (EU) No 1304/2013)**

Irrelevant for this programme.

## **6 ISSUES THAT AFFECT THE PERFORMANCE OF THE PROGRAMME AND THE MEASURES TAKEN (Article 50(2) of Regulation (EU) No 1303/2013)**

### **a) Issues that affect the performance of the programme and the measures taken**

The situation in the area of administrative capacity improved significantly in 2020. Compared to the previous year, the fluctuation decreased by 8.19% to 7.95%. This can also be attributed to the impact of COVID-19 on the labour market. 15 selection procedures were conducted. The recruitment of new staff and the duration of the administration of selection procedures were impacted by COVID-19, yet most vacancies were filled.

In order to stabilise and professionalise the employees, their internal training continued. The training is part of a systematic training and includes initial and ongoing professional training. Each training event is reflected in the employee's annual Individual Training Plan compiled on the basis of the employee's service/ work evaluation.

Internal training is carried out as a transfer of information, knowledge and good practice between employees in order to ensure a uniform level of knowledge and practice in the IROP, exploiting the professional potential of existing employees.

External training is provided through training events of the National Coordination Authority or the MoRD Personnel Department, or employees may participate in specialized seminars and courses as required, including abroad. In 2020, the training events were often cancelled due to COVID-19 or were held online.

In 2020, the fourth revision of the IROP PD was made. The main change was the reallocation of funds in the amount of EUR 38,849,979 to SO 3.2 focused on eGovernment to cover projects on digitization of the building permit procedure. After the revision related to the need to respond to COVID-19, the source of reallocation was changed from external reallocation from the Operational Programme Enterprise and Innovation for Competitiveness (OP EIC) to internal reallocation from IROP. SO 2.5 aimed at reducing energy intensity in the housing sector was identified as a suitable source. The funds maintained in OP EIC were used to address the COVID crisis. Digitization of the building permit procedure has remained a priority as it will speed up the implementation of construction projects in the medium term and thus help to accelerate the economy that will be weakened by the current crisis. The changes were approved in a resolution from the 13<sup>th</sup> meeting of the IROP Monitoring Committee, adopted in a written procedure on 30.06.2020. The European Commission approved revision 1.4 of the IROP PD in its Implementing Decision C(2020) 4938 from 15 July 2020. The European Commission issued its Implementing Decision

(Correcting Act) C(2020)6733 from 29 September 2020 due to an error in the Annex II. Implementing Decision.

In 2020, the fifth revision of the IROP PD with the serial designation 2.0 was launched. The main change is establishing new priority axes 6 and 7 in order to use the additional ESIF allocation for the Czech Republic in response to COVID-19 in accordance with the REACT-EU Regulation.

The IROP documentation complies with the Single Methodological Environment (SME). Given the number of methodological documents in the SME and the frequency of their changes, the IROP MA has to amend its documentation often. Another frequent reason for updating the management documentation are changes in the MS2014+ information system.

For the above reasons and for reasons arisen during the actual programme implementation, the following was issued in 2020:

- 1 revision of the IROP Operational Manual,
- 3 Methodological Letters of the IROP MA on the IROP Operational Manual,
- 25 Records of the IROP Implementation,
- 2 Binding Opinions,
- 30 revisions of the Specific Rules for Applicants and Beneficiaries.

Every 6 months, an up-to-date IROP Risk Catalogue is drawn up and detailed measures are prepared for each of the risks. The IROP Risk Catalogue is updated on the basis of the Risk Management Report and the Risk Sub-Analyses.

The NCA co-ordinated the so-called enhanced IROP risk management with a quarterly reporting on managing the identified risks. All horizontal measures relevant to IROP are implemented continuously and have a positive impact on IROP in all respects. They naturally complemented the IROP measures that follow from the IROP Risk Catalogue and are updated every six months. The main result is that the IROP met the n+3 target for 2020.

As of 31 December 2020, 47 risks were identified in the areas of meeting the programme objectives and managing the programme, for which 171 measures were taken. One of the measures to be highlighted is Binding Opinion No 20, which mitigates the administrative sanctions on applicants for delays in project implementation, non-fulfilment of the project purpose or not meeting the deadlines set for applicants and beneficiaries, due to the pandemic.

In addition to the standard on-the-spot public administration checks carried out by the Centre for Regional Development of the Czech Republic (CRD CR) on a sample of projects based on a risk analysis, the IROP MA launched in 2018 the first series of extraordinary on-the-spot public administration checks on a sample of SO 2.1 projects with risk signs - establishment of an association in the period after the announcement of calls 34 and 35, or linkage in the person of the statutory body of the association or the project administrator. Based on the findings of these checks, the sample was extended in September 2019 to all projects of beneficiaries from among non-profit organizations where the project implementation was completed. Due to the complexity of finding evidence, as well as to pandemic-related constraints, the

checks were completed gradually during 2020 and will be partially carried out in 2021. The status and quantitative results of the checks:

- checks without findings: 13
- with a finding: 19
- in progress: 9
- to be started: 1
- Volume of checked TEE: CZK 274 551 406
- Volume of ineligible expenditure detected by the checks: CZK 21 907 140
- Error rate: 7.98%

The most common findings and findings with the greatest financial impact:

- acquisition of real estate from close persons or persons otherwise linked with the beneficiary, which in some cases leads to an increase in the price of the real estate;
- occupancy of social flats by persons who do not fall into the target group of persons defined by the rules of the call;
- social flats remaining vacant longer than the set time period after the completion of the project implementation and the resulting failure to fulfil the objective and purpose of the project;
- unavailability of social work for the tenants of social flats, which the beneficiary committed to providing;
- non-compliance with the limits for the amount of rent and the amount of total eligible expenditure in relation to the floor area of the social flats implemented.

Measures to eliminate similar findings:

- A ban on the acquisition of real estate from close/connected persons was incorporated into the IROP General Rules already in version 1.6 valid from 3 April 2017, after which date the purchase of real estate has been checked from this point of view already during the appraisal.
- The IROP MA, in cooperation with the CRD CR, revised the verification procedures - the checklist for on-the-spot checks was modified and supplemented, cooperation was established with other relevant public administration bodies in the field of social housing, a remote access to the land register is used to verify compliance with the rules of the call.
- As a help for the beneficiaries, a detailed and indicative model of the Affidavit on Income was compiled in the revised Specific Rules for Applicants and Beneficiaries, according to which the beneficiary will be able to easily verify whether the applicant for social housing meets the prescribed parameters.

(b) OPTIONALLY with SHORT REPORTS, otherwise it will be indicated in point 11.1 of the template (Article 50(4) of Regulation (EU) No 1303/2013):

The assessment of whether the progress is sufficient to achieve the objectives, indicating any corrective action taken or planned.

## 7 SUMMARY FOR THE PUBLIC (Article 50(9) of Regulation (EU) No 1303/2013)

The Integrated Regional Operational Programme (IROP) builds on the Integrated Operational Programme (IOP)

and the regional operational programmes from the 2007-2013 programming period. IROP pursues a balanced territorial development, it seeks to upgrade the infrastructure, improve public services and public administration and to ensure sustainable development in municipalities, cities and regions.

The aim of the programme is to strengthen regional competitiveness and the quality of life of all Czech citizens. The funds available to IROP amount to EUR 5.6 billion, i.e. almost CZK 142.6 billion. The function of the IROP Managing Authority (IROP MA) is performed by the Ministry of Regional Development.

### **IROP in numbers:**

- **95 calls for proposals announced, offering a total of CZK 202 billion**
- **16 039 grant applications submitted, worth a total of CZK 238 billion**
- **3 516 applications worth a total of CZK 53.6 billion excluded due to a failure to meet the conditions of the call or to a lack of funds in the call**
- **10 840 projects for a total of CZK 161 billion approved,**
- **legal acts issued for 10 388 projects worth CZK 156 billion in total, i.e. 107% of the IROP allocation,**
- **CZK 86 billion disbursed to the beneficiaries, i.e. 59% of the allocation**
- IROP MA prepared interim requests for payment from the Commission in the amount of CZK 67 billion (ERDF), i.e. 54% of the total programme allocation (ERDF).
- 6 667 projects for a total of CZK 76 billion completed.

### **Integrated instruments in IROP**

In 2020, calls under integrated instruments continued to be announced, in particular calls of the Local Action Groups (LAGs). Urban agglomerations implementing Integrated Territorial Investments (ITI) announced cumulatively 213 calls to which 881 aid applications were submitted, requesting EUR 672.4 mil., of which 625 projects worth EUR 483 mil. are already under implementation. EUR 318.5 million has been disbursed, i.e. 57.6% of the total ITI allocation in IROP.

Urban agglomerations implementing Integrated Territorial Development Plans (ITDPs) announced cumulatively 174 calls to which 306 aid applications were submitted, requesting EUR 191.5 mil., of which 248 projects worth EUR 159.3 mil. are already under implementation. EUR 96.2 million was disbursed, i.e. 45.6% of the total ITDP allocation in IROP.

Local Action Groups announced cumulatively 1 783 calls to which 4 028 aid applications were submitted with an allocation of EUR 340 mil., of which 2 682 projects are already under implementation at EUR 224 mil. EUR 132 million was disbursed, i.e. 45.5% of the total CLLD allocation in IROP.

After the fourth revision of the programming document, the allocation for projects of integrated instruments is approximately EUR 1.2 billion (24.1% of the total IROP allocation).

### **How does IROP specifically benefit the regions?**

By the end of 2020, the support from the Integrated Regional Operational Programme helped to upgrade 680 kilometres of roads. 823 vehicles were purchased for public transport. 699 facilities for social services were supported. In the area of social housing, 1 000 flats were supported. A total of 1 360 educational institutions and 107 health facilities across the Czech Republic were supported.

A total of 50 309 Czech households reduced their energy consumption thanks to support from the IROP and improved their classification of energy consumption. So far, 34 monuments have been revitalized with IROP funding and 382 information systems have been acquired.

### **Compliance with the n+3 rule**

In 2020, the IROP met the limit set by the so-called n+3 rule (funds allocated in a given year must be used up within 3 years). In this case, it was necessary to absorb CZK 45 billion (EU funds share) by the end of 2020. The IROP Managing Authority managed to exceed that limit by CZK 22 billion.

### **Revision of the IROP Programming Document**

In 2020, the IROP MA made the fourth revision of the IROP Programming Document (IROP PD). The most significant change was the internal reallocation of CZK 1 billion from specific objective 2.5 Thermal insulation to objective 3.2 eGovernment to cover the digitization of the building permit procedure as a priority area, which will accelerate construction and consequently help to accelerate the economy weakened by the current crisis. The European Commission approved the IROP PD revision in its Implementing Decision C(2020) 4938 of 15 July 2020.

### **Information about the financial instrument**

The IROP financial instrument (IROP FI) was implemented in 2020 under SO 2.5, specifically in the area of energy savings in apartment buildings. The implementation was processed by the State Investment Support Fund (SISF). On 21 February 2020, the IROP Managing Authority issued a call to the IROP FI manager. SISF in the role of the IROP FI manager created a Thermal Insulation Programme, through which it implements the IROP FI. Subsequently, SISF issued a call to final recipients with the receipt of applications starting on 2 March 2020. Then, on 25 June 2020, a Financing Agreement was signed between the IROP MA and the SISF, in which SISF received an allocation of EUR 22 892 245,35 for the IROP FI.

## **8 REPORT ON IMPLEMENTATION OF FINANCIAL INSTRUMENTS (Article 46 of Regulation (EU) No 1303/2013)**

The IROP financial instrument (IROP FI) was implemented in 2020 under SO 2.5, specifically in the area of energy savings in apartment buildings. The implementation processed by the State Investment Support Fund (SISF), in accordance with Article 38(4)(c) of CPR, as amended by Regulation (EU, Euratom) 2018/1046 of the European Parliament and of the Council. On 21 February 2020, the IROP Managing Authority issued a call to the IROP FI manager, which set out the requirements for the SISF activity as a financial intermediary, and subsequently the implementing acts were entrusted to it.

SISF in the role of the IROP FI manager created a Thermal Insulation Programme, through which it implements the IROP FI. Subsequently, SISF issued a call to final beneficiaries with the receipt of applications starting on 2 March 2020.

Then, on 25 June 2020, a Financing Agreement was signed between the IROP MA and the SISF, in which SISF received an allocation of EUR 22 892 245,35 for the IROP FI. Detailed data on the IROP FI are available in the appendix to the annual report.

## **9 Optional for the report submitted in 2016, does not apply to the other short reports: ACTIONS TAKEN TO FULFILL EX ANTE CONDITIONALITIES (Art. 50(2) of Regulation (EU) No 1303/2013), if not fulfilled at the time of adoption of the programme: (see item 13 of the model)**

## 10 PROGRESS IN PREPARATION AND IMPLEMENTATION OF MAJOR PROJECTS AND JOINT ACTION PLANS (Article 101(h) and Article 111(3) of Regulation (EU) No 1303/2013)

### 10.1 Major projects - not relevant for IROP

Table 12: Major projects

Project	CCI	Status of the major project 1. completed 2. approved 3. submitted 4. planned notification/ submission to the Commission	Total investment	Total eligible costs	Planned date of notification/ submission (if applicable) (year, quarter)	Date of automatic approval by the Commission (if applicable)	Planned start date of implementation (year, quarter)	Planned completion date (year, quarter)	Priority/ axis/ investment priorities	Current state of implementation – financial progress (% of the expenditure certified to the Commission in comparison to the total eligible costs)	Current state of implementation – physical progress The main phase of implementation of the project 1. complete/in operation; 2. advanced construction ; 3. construction ; 4. procurement 5. proposal	The main outputs	Date of signing the first contract for work <sup>1</sup> (if applicable)	Comments (if necessary)
---------	-----	--	------------------	----------------------	--	--	---	--	---	---	---	------------------	--	-------------------------
